

QA Internship
Assignment (#4)

REST API Testing in C#

❖ Part 1: Manual Testing

- **Test Plan Document (STP)**
- **Project Name:** Store API Testing
- **Objective:** To verify the correctness of the Fake Store API endpoint by performing manual and automated tests.
- **Scope:** This document covers the manual testing approach for the Fake Store API. It will include test scenarios, test cases, and expected results.
- **Prerequisites:**
 - REST client tool (Postman, Insomnia, etc.)
 - Basic understanding of HTTP methods and JSON.

❖ Part 2: Automation Testing

- **Description:** The purpose of this part of the assignment is to automate the tests for the Fake Store API using C#. You will need to create a client to send requests to the Fake Store API and validate the responses.
- **Requirements:**
 - **Create a Test to Verify Status Code:** Create a test that verifies the response status code is 200.
 - **Create a Test to Verify Cart ID:** Create a test that verifies the response contains a cart with the ID 5.
 - **Create a Test to Verify Cart Contains Products:** Create a test that verifies the cart contains at least one product.
- **Instructions**
 - **Setup:**
 - Ensure you have a development environment with C# (Visual Studio or any other C# IDE).
 - Install necessary libraries for making HTTP requests and handling JSON responses.

▪ **Implementation:**

- Create a C# project.
- Implement the API client to send GET requests to the given endpoint.
- Write automated tests for each of the requirements listed above.

▪ **Submission:**

- Once you finish (or the time is over), zip your code base (excluding the `bin` and `obj` folders) and upload a single zip file.
- Ensure the code is well-documented and follows best practices.

❖ **API Endpoint Details:**

- **URL:** <https://fakestoreapi.com/carts/5>
- **Method:** GET

❖ **Notes**

- The use of ChatGPT or any other AI tools to solve this assignment is strictly forbidden.
- Ensure your solution is robust and handles potential errors gracefully.
- Comment your code where necessary to explain the logic.

Good Luck 😊
